DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Claims 11 and 13 are allowable in light of the applicant's amendment filed on July 14, 2004. It is known in the art that MAP kinase includes ERKs and JNKs (see the specification, page 2, last paragraph). The closest prior art in the record are Shah *et al.*, (Proc. Natl. Acad. Sci. USA, 94, 3565-3570, April 1997) and Shokat (US Patent No. 6,390,821, priority date: February 7, 1997). These closest prior art do not teach a mutant ERK2 comprising the amino acid sequence of SEQ ID NO:2 wherein amino acid 105 is threonine or alanine or a mutant JNK3 comprising amino acids 40-402 of SEQ ID NO:3 wherein amino acid 146 is threonine or alanine. These prior art either alone or in combination with the other art in the record do not teach or reasonably suggest an isolated or purified mutant of naturally-occurring MAP kinase which comprises all of the limitations recited in claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
